

The Trust Preferred Physician Network (PPN) is an easy, three-step guide and preferred physician network to help you on the road to recovery.

The Trust PPN consists of eleven areas of Trust-preferred Rhode Island medical specialists who are uniquely qualified to treat workplace injuries. Physicians include: chiropractors, neurologists, orthopedists, ophthalmologists, surgeons, and urgent care specialists.

WELCOME TO THE TRUST PPN

Unfortunately, you've experienced a work-related injury and need the best care possible for the type of injury you sustained. To help you on your way to full health, The Trust Preferred Physician Network, or PPN, has been developed as part of our workers' compensation program. The Trust PPN consists of Rhode Island health care professionals that span eleven medical specialties and have been carefully selected to ensure you receive the best possible treatment.

This guide will help provide you with all you need to know about using The Trust PPN in just three easy steps. To locate a physician in one of the following specialty areas, please refer to the listing below.

We wish you a quick and complete recovery.

USING THE TRUST PPN IS EASY AS 1-2-3

When you are injured on the job, you have the right to select a doctor of your choice for your initial visit and ongoing treatment. To save you time and effort, The Trust has carefully researched and compiled a network of the best doctors available and encourages you to make your selection from this booklet. If you decide to change doctors after your initial visit, you must choose one from The Trust PPN. (If your initial visit was made to an emergency room, it would not count as your first choice of a provider outside the network.)

Tell your doctor at the time of your visit that you were injured at work. Your doctor will then send all bills directly to The Trust for hassle-free processing.

You will receive a prescription card that allows you to participate in The Trust's prescription drug program. The card will be sent to you from "myMatrixx." Through this program, you will be able to conveniently purchase outpatient prescription drugs without having to fill out claims forms or pay any out-of-pocket expenses. For your long-term needs, you will also have access to a home delivery service. You will receive more information, including the names of participating pharmacies with your prescription card.

TRUST CONTACT INFORMATION

PARTICIPATING PHYSICIANS

Doctors and Surgeons in The Trust PPN have been selected for the high quality of patient care they provide to Rhode Island's injured workers. Approved by the Rhode Island State Medical Advisory Board for Workers' Compensation, these physicians employ appropriate care standards, diagnostic testing and advanced rehabilitative services to return you to full health and productivity as soon as practical.

Please refer to the directory in the following pages of this guide for a current listing of doctors and surgeons, listed by specialty, who participate in the network.
